MANSORY 9X

MASTER OF CUSTOMIZATION

Design Philosophy

Obsidian Shadow Carbon

Pure black and carbon fiber define the exterior, stripping away every trace of ostentation to create a commanding fortress of the night.

A commanding presence, embracing the world in profound black.

Majestic and Stern

The imposing, square-cut front stands like a guardian of the night. A waterfall-style obsidian grille and sharply sculpted carbon fiber front splitter express the mystery of Obsidian Shadow and the uncompromising intensity of Carbon Black.

Crimson Glow

A crimson accent traces the side like embers at the edge of the polar night, bringing a fiery pulse to the cool darkness. Beneath its strength lies a sharply defined edge.

A Flash of Thunder

The full-width crimson taillight cuts through the night like a bolt of lightning, casting a cool, striking edge across the deep texture of Obsidian Shadow Carbon. The carbon fiber diffuser and quad exhaust outlets stand poised, their mechanical strength reinforcing the commanding presence of this dark fortress.

Crafted Interior

Midnight Black

At the deepest hour of night, darkness lingers as the final surge of anticipation gathers before dawn.

With flowing radiance, quietly awaiting the sunrise.

4-Seat Exclusive

2+2 Layout

Obsidian-black leather and cool carbon fiber create a deep, serene cabin. Vivid lava-orange accents flow through the precision quilting like molten gold, illuminating the door trim and distinctive headrest badges. The powerful contrast of warm and cool tones creates an unmistakably commanding presence.

5-Seat Exclusive

2+3 Layout

For discerning enterprise founders, holding-group chairmen and seasoned investors aged 40-55. Discreet and considered, they favor quiet confidence over display. Their authority and decisive judgment express a distinguished standing without a word.

Crafted to the finest detail, capturing the beauty of dawn.

6-Seat Exclusive

2+2+2 Layout

From private board meetings and airport VIP access to presidential hotel suites and business receptions at private estates, Obsidian Shadow Carbon brings a restrained presence to every setting. It welcomes those who have experienced the finest things and returned to what matters: take your seat and travel with effortless assurance.
