MASTER OF CUSTOMIZATION

Design Philosophy

Ink Splash, White Space

Ink and water merge; form and empty space bring each other to life. Bold black meets pure white in an expressive vision of Eastern ink-wash artistry.

A new realm unveiled. Discover distinction together.

The Art of Contrast

Ink Splash, White Space brings Eastern ink-wash artistry together with the commanding presence of bespoke design. The deep obsidian carbon fiber grille and bonnet flow like rich ink across the pure white body. Pristine white panels evoke untouched paper, creating a sense of space and calm. Black and white, substance and emptiness, define a dramatic silhouette with quiet authority and the refined simplicity of Eastern luxury.

A symphony of light, awaiting the first dawn.

Flowing Clouds and Water

Like a sheet of pristine rice paper, the white body carries a long, straight character line in one continuous sweep to the rear, emphasizing generous proportions and a composed stance. The floating obsidian carbon fiber roof, black window surrounds and wide black wheel arches resemble bold ink strokes, giving the body a strong, sculpted structure with the depth of night.

Ultimate Simplicity

The rear forms the final stroke of an ink painting: deep, deliberate and quietly commanding. A pure white tailgate conveys solid, generous proportions. Above and below it, the obsidian carbon fiber roof spoiler, full-width carbon fiber trunk trim and aerodynamic diffuser create a cascade of rich black. Dark bodywork accents and four exhaust outlets complete its muscular, mechanically powerful presence.

Crafted Interior

Dusk Orange

Warm and mellow, with the glow of molten gold, the cabin gathers the colors of twilight into a space filled with gentle, flowing radiance.

With the rhythm of radiance, welcome the light of dawn together.

4-Seat Exclusive

2+2 Layout

The independent 2+2 executive layout is more than a minimalist reimagining of space: it creates a personal world shaped around you. Generous aviation-style seats feel like private thrones suspended in time. Extra-long leg rests and multi-way adjustment remove every unnecessary constraint, leaving space to stretch out in complete ease.

5-Seat Exclusive

2+3 Layout

For discerning collectors at leading auction houses, gallery owners, contemporary art curators and business leaders across industries aged 35-50. Combining Eastern philosophy with a global aesthetic outlook, they see each vehicle as an expression of individual character.

Crafted to the finest detail, sculpting the poetry of light and shadow.

6-Seat Exclusive

2+2+2 Layout

From international art auctions and VIP receptions at annual corporate exhibitions to private museum opening galas and haute couture salons, Ink Splash, White Space is created for those who retain clarity amid the noise of the world and recognize what endures through change. Take your seat and share the journey.
